Cheryl,
Please see the message below regarding GIS mapping data for Wood County and the Town of Port Edwards. Justin sent this link. If this isn't what you need, please contact him directly at jconner@co.wood.wi.us Thanks Cheryl!!

Subject: mapping

As you know, we are working with the EPA on a groundwater project in the Town of Port Edwards. Your maps of the area were really helpful.   They are now requesting a map of the town of Port Edwards with all of the residences noted on the map.   This will help them determine areas that may need additional sampling.   This info/map is to go to the fellow from Region 5 EPA who is working on this project. I hope this makes sense to you. I am definitely not a GIS mapping person. ☺   can you provide this?   I havent' gotten the person's name yet who needs the info.
Nancy
